

**CITY OF COLTON  
NOTICE OF PUBLIC HEARING  
REGARDING PROPOSED INCREASES TO  
SOLID WASTE RATES**

**Dear Property Owner/Tenant/Customer:**

**NOTICE IS HEREBY GIVEN** that the Colton City Council will hold a public hearing on or after **6:00 PM on December 20, 2022**, or as soon as possible thereafter, **in the City of Colton Council Chambers - 650 N. La Cadena Drive, Colton, CA 92324**, to consider adopting increases to the rates for the collection and handling of trash, recycling, and organic waste services within the City (collectively, “Solid Waste Services”). Said public hearing will be held to consider all oral testimony and written protests to, and the adoption of the proposed rate increases. If the Colton City Council decides to conduct the hearing remotely in the interest of public health and safety pursuant to Assembly Bill (AB) 361 (Chapter 165, Statutes of 2021), information will be posted on the City’s website as soon as possible, and will also be included in the published agenda for the December 20, 2022 Colton City Council meeting.

**Reason for the Proposed Service Rate Increases**

CR&R Incorporated (CR&R) provides Solid Waste Services within the City pursuant to the exclusive franchise agreement. The rate structure for monthly Solid Waste Services is for three customer classes: (i) single-family residential and (ii) multi-family residential and (iii) commercial. The rate structure for solid waste service depends of the type of customer. For single-family residential customers, the rates for solid waste service are calculated on the basis of the standard set of containers and any additional number of trash, recycling and organic waste containers they use. For multi-family residential customers, the rates for solid waste service are calculated on the basis of the size of container they use, the materials accepted in the container (e.g., trash, recyclables, or organic waste) serving the property, and the frequency of collection per week. For commercial customers, the rates for solid waste service are calculated on the basis of the size of container they use, the materials accepted in the container serving the property, and the frequency of collection per week.

Customers may request temporary extra pick-ups of their containers and bins than are scheduled and may also request the delivery of temporary extra bins to their property. A separate “extra pick-up fee” and “bin charge” is imposed on any customer who requests these services. The proposed maximum rates for all solid waste service types are described in Exhibit A..

The proposed rate increases for Solid Waste Services are necessary for CR&R to provide mandatory organic waste collection services pursuant to regulations implementing Senate Bill (SB) 1383 (Chapter 395, Statutes of 2016). Residents and businesses must separate organic waste (such as yard waste and food waste) from other trash to be managed at a facility other than the landfill. To accomplish this, all property owners, residents, and businesses will be required to enroll in collection services for trash, recyclables, and organic waste. Recycling services include processing of recyclables and organic waste collected from all customers at state-regulated facilities. Recycling of organic waste requires additional processing of the waste.

Other portions of the Solid Waste Services rate include fees to administer Solid Waste services, provide inspections, enforcement, and oversight; conduct extensive public

education and outreach; procure organic compost/mulch or renewable natural gas; and comply with state mandates relating to Solid Waste Services.

CR&R was entitled to a CPI rate adjustment for commercial customers on July 1, 2022 under the franchise agreement. The proposed rate increases for Solid Waste Services includes this adjustment, with the rates taking effect January 1, 2023.

If the Solid Waste rates are approved by the City Council, CR&R will implement the solid waste rate increases in Exhibit A effective January 1, 2023.

## **Annual Rate Adjustments**

### CPI Adjustment

For the fiscal year beginning July 1, 2023, and annually thereafter on July 1 through and including July 1, 2027, the Collection Cost Component of the maximum rates provided in Exhibit A shall be automatically adjusted annually based upon the annual percentage in the Consumer Price Index for All Urban Consumers for the Riverside-San Bernardino-Ontario, CA, as determined by the United States Department of Labor Statistics. In no event will the annual adjustment for the inflationary adjustment discussed in this paragraph exceed the actual change in value in any year.

### Tipping Fees

The Tipping Fee Component of the maximum rates provided in Exhibit A is based on the estimated average cost per ton for disposal, and for Recyclables and Organic Waste, the estimated average cost per ton of processing, for all tons of Solid Waste projected to be collected by CR&R for the rate year (July 1 – June 30), as adjusted for the average annual change in the Consumer Price Index for All Urban Consumers for the Riverside-San Bernardino-Ontario, CA Metropolitan Area, as determined by the United States Department of Labor Statistics. These adjustments will occur beginning July 1, 2023, and every July 1 thereafter, through and including July 1, 2027. In no event will the annual adjustment for the Tipping Fees discussed in this paragraph exceed the actual change in value in any year.

## **Protest Procedure**

Owners of record and tenants, as defined under Proposition 218, may submit a written protest against the proposed solid waste service rate increases, but pursuant to Government Code section 53755 (b) only one written protest will be counted per identified parcel. Any written protest must include: (1) the name of the person submitting the protest and their interest in the property (i.e. owner or tenant), (2) identification of the property by either the assessor's parcel number or street address, (3) a statement of protest ("I/we protest" will suffice) and (4) the original signature of the protesting owner or tenant (photocopies will not be accepted). Written protests must be received by the City Clerk at 650 La Cadena Drive, Colton, CA 92324 before the close of the public hearing. Any protest not received by the close of the public hearing, regardless of date mailed or date of postmark, will not be counted. Any protest submitted via e-mail or other electronic means will not be accepted. Please identify on the front of the envelope for any written protest, whether mailed or submitted in person to the City Clerk, Attn: Public Hearing on Solid Waste Rate Increases. The City Council cannot adopt the proposed solid waste service rate increases if, at the close of the public hearing, written protests are submitted by a majority of the solid waste customers of record subject to the proposed solid waste service rate increases.

## **Questions**

For questions about the proposed solid waste collection service rate increases please contact the City of Colton at 909-370-5132 or by email at [solidwasteservices@coltonca.gov](mailto:solidwasteservices@coltonca.gov).
